Laurier Says British Sanction is Matter of Form.
London, July 3.—(C. A. P.)—Sir Wilfrid Laurier, interviewed by the Journal at Paris on the subject of the improved relations between France and England, said that when terms between France and Canada had been arranged, the obtaining of the British Government's signature would be a matter of form.
England, whose lady subjects we are, are not so much as we have been given their independence, and France, in a situation without any difficulty, leaving us to every latitude in the subject of the subject, and it is surely to our interest, as it is to the interest of the world, that we should have a treaty which we can all be proud of.
The special treaty that we desire will, in short, without any relations, mother and daughter, suggested the interview, but Sir Wilfrid was not to be caught that way.
Leave the question of relationship in general terms," he said, adding, rather hesitatingly, "and mind you don't make me say a word more than I have said to you."
The Paris Journal announces that the treaty of commerce between France and Canada will shortly be signed by the Governments of the two countries.

BARTENDER HITS MAN.

He Became Quarrelsome Over Price of Drink and Fall Broke His Jaw.
Haltersbury, July 3.—(C. A. P.)—Police Powell arrested George Hunter, a bartender at the Vendome Hotel, Haltersbury, Monday night on a serious charge.
It appears that three weeks ago a man named Thomas Boland was in the hotel and became quarrelsome because he was charged five cents for a bottle of beer, and Hunter put him out. Hunter put him out. In a few minutes he came back, and Hunter walked from behind the bar and got him out again. Boland turned and advanced towards him, calling him vile names. Hunter came out and hit Boland full in the doorway and broke his jaw.
Boland was taken to Ottawa and died Monday.
The deceased is said to have been a quarrelsome man, and sympathy was shown to his family. Hunter is a married man and his home is in Ottawa.

The authorities have been given a number of men from the line last night. Some of the men were taken to the station and returned home. Merchants were not permitted going and coming here to load and unload their goods.

A special meeting of the Board of Trade yesterday afternoon a motion picture was photographed by M. J. Bomb Was to Be Thrown at Former President's Carriage—Companions Betray Traitor Pretending Loyalty—When Taken to the Wood to Get Explosives Turn Upon Conspirator and Kill Him.

St. Petersburg, July 3.—From revolutionary sources there has been considerable publication of a full-blown sensational reactionary plot to compass the murder of Grand Duke, the former Russian Premier, who represented his country at the peace negotiations at Portsmouth in 1905.

This assassination was planned by the Moscow branch of the Union of True Russian People, the organization to which the Emperor would communicate on June 17, conveying his blessing to the Ultra-Imperial party, and his hopes for the success of its proposals.

The execution of the plot was entrusted to the leader of the Moscow branch, a man named Kassevitch, who came to St. Petersburg the latter part of May and secured lodging in a factory as a common laborer.

He befriended several of his fellow workmen, and after ascertaining that the Moscow branch of the Union of True Russian People, the organization to which the Emperor would communicate on June 17, conveying his blessing to the Ultra-Imperial party, and his hopes for the success of its proposals.

A Report on

India Grows.

Natives Are Training In Archery and Sword Exercises.

Situation More Serious Than Government Realizes—British Goods Boycotted—Rural Police Affected—Assaults on Europeans Increasing—Many Lawless Acts Committed—Students Openly Defiant.

London, July 6.—Indian despatches represent the trouble in India as increasing. A correspondent who has been in Bengal telegraphs that the seriousness of the situation is hardly realized by the Europeans in India or at home. Landholders and the Bengal aristocracy, as well as among the peasants and coolies.

An active organization has been formed in almost every town and village, being trained in archery and sword exercise by well-paid instructors. They practice in the open air, and the British and actively paid the boycott of British goods. Men who cannot be threatened and who are not without weapons with English officials, the deadliest weapons that can be employed against a British.

Hundreds of tales of lawlessness and oppression by the natives are told from every district. The lawless acts are too widespread to be afforded to take action. The people are gradually learning to place in their own hands. General land-owners have been expelled and administrative powers by imprudent means.

In the Police Reserve Exhausted.

In the Police Reserve exhausted, the public safety is threatened. The police are being used to suppress the lawless acts of the natives. The Government has been forced to call upon the reserve police and has ordered the recruitment of new police from other provinces. Many a man who fears he will get hold of the wrong bottle in the dark will drink himself to death under electric lights.

Speaking of bad habits, can't some one take measures to prevent automobile smoking?

Rev. I know our man, he said in which a man and woman buried their child. They and their family were dressed in the deepest black, and had all together, too expensive funeral. That night they were both intoxicated. "Incidents of this kind are simply gruesome, and I shall not be content against the waste of money on funerals, especially for buying black clothes." There are not a few who will agree with the Rev. gentleman.

The Hon. W. C. Hanna, Provincial Secretary of Ontario, in a speech delivered at a meeting of Canadian electors on the 5th inst., in East Huron, said: "How shall we get back the timber areas that have passed from us?" The Hon. gentleman had given them away in perpetuity. Under the present system the areas returned to the State, within fifty years. In the only great sale since 1863 he had obtained the rate of \$60,000 per acre the old regime.

The Sunshine is differently and better constructed than common furnaces. It's stronger, safer, more beautiful. The dome, the two sections of the first and the frame of the ash-pit are all securely fastened together by our famous "cup joints." These "cup joints" in all you see. All sections, you will notice, fit together perfectly, and are lined with a layer of asbestos cement, which unites them so firmly together that they become, in every purpose, one solid piece of metal. Can never spring or warp at all.

And that's not all! The top of the dome is fastened to the sides with cement and boiler rivets, making the Sunshine just as smoke, gas, heat and dust tight as a steam boiler. From a hygienic standpoint it takes pre-eminence in the furnace world.

Notice, too, the Sunshine is equipped with an automatic gas damper. This damper automatically closes when the gas in the furnace reaches a certain pressure and allows it to escape up the chimney. Eliminates all danger of an explosion, gas escaping through the registers.

Safest as well as most beautiful, easiest managed, cleanest, greatest labor-saving and best economizing furnace you can buy.

If your local dealer does not handle the Sunshine write direct to us for free booklet.

Married couples from the first. Have sought for years in vain; and now they have found them, again by reading Cain.

Borrowing is a sure way of securing the future on the altar of the present.

One of the greatest powers in the world is crummed with opportunity; anybody can make money, but it takes an expert to keep it.

The young man of sound principles and fair ability, who can save his money and control his habits, is valuable in any career.

In a single, a deaf husband and a blind wife come very close to the ideal. One never seems to hear anything, the other never seems to see anything.

A woman's chance for making a good life depends entirely upon the past. It takes force of character to live deeply and to be worthy of the deepest love. There are some people who will never give up to love a man for what he is and not for what she can get out of him.

We have noticed that an objectless as much larger when seen through a fog. So it always is. Broader over anything rather than things that hide and unnatural proportions.

The best preventative is something that will occupy the mind; lead above the reach of the devil.

WASHINGTON'S WOING.

Matters important forgotten because of Martha Curtis.

In the traditions of any member of the Washington family the story of Martha Curtis is of supreme importance. She was the first woman to move in New Broadway market.

It happened one day that she was in the company of a well-known, Major Chamberlayne, when there British uniform. The best officer in the British uniform. The best officer in the British uniform.

Ah, a lady in the case! That was different. But the plans of them have often waited on Cupid. When the officers lowered low over the hand of the young girl, she was the only one who had seen the girl's face.

There was a splendid wedding at the home of the bride. The bride was the daughter of the governor, and she, placed with the daughter of the governor, Washington, of whose military fame had heard so much in the past.

And she, placed with the daughter of the governor, Washington, of whose military fame had heard so much in the past. The bride was the daughter of the governor, and she, placed with the daughter of the governor.

Mr. Agnew had had told the people of Huron that he had to allow a greater \$300 for a property worth only \$250. With such policy in regard, such value is expected but a demand for double the value of the land?

WOMEN EMPLOYEES.

A recent report made by the Bureau of the United States the number of women employed in that country to be nearly 1,000,000, the comprehensive number sixteen years of age and over. They are classified as native white males, white females, foreign female, foreign male, white, negro, and Indian. The first class numbered 85.7 per cent, the second 23.6 per cent, the third, 17.4 per cent. The negro males 23.2 per cent.

This report shows that 68.2 per cent are under thirty-five years of age, 14.4 per cent, and 17.4 per cent are over thirty-five years of age. The report shows that 97.6 per cent are married, 17 per cent widows, while a fraction over 15 per cent are married. The inference is made that women seem to be breadwinners when they enter the marriage state. Under the head of bread-

LIVING IN PARIS.

The Way One Rents an Apartment in the French Capital.

Payments are made in advance on the 1st of January, April, June and October. The rent runs up to these dates. But when intending to leave the tenant should give his three months' notice.

Why He Did Not Marry.

As a reason for not marrying, Brabant told me to a friend, "I was the only one who was not married at the time when I was in Paris. My companions were all married at or at any rate very near to the time when I was in Paris. I know their worth, the way they would be turned, and in some cases I never really took my eyes off them. I was not married by a wife at such moments, to

It is merely needless to buy a stamped sheet of paper for 6 cents of the stamp, the legal value of all the trouble, writes the notice thereon and to give it to the landlord. The tenant need it only by registered letter. The concern, although he collects the rent and has full charge of the house, is neither authorized to let the apartment nor to make any agreement. The paper signed by tenant and indorsed by the former guarantees to return the

KEEP YOUR GAIT.

Hang on! Cling on! No matter what they say, and though on things on things, I'll hang on my way. Sit down and wait, and wait, and wait, a bit. Don't say that there is by keeping up your gait. Don't give up hoping when the ship goes down. Grab a spar or something — just refuse to drown. Don't think you're dying just because you're ill. Smile in face of danger and hang to your gait. Make do too easy — they sort of fade away. Make a little error, and give up in dismay. Goodness knows, God needs the man with ready wit. To laugh at life and trouble and all that's in his grip. — L. K. Taylor, in *Practicalist* Weekly.

A bloodless deed just been fought between a newspaper editor and a politician. The latter, regarding himself insulted by an article published by the former, addressed to him the following letter: "Sir—A man who respects himself refrains from sending a challenge to an individual such as you. He satisfies himself by simply smacking your face. Herewith consider your face smacked. Yours truly, J. M. [Signature]."

To which the journalist replied: "Dear Sir—I am in receipt of the two smacks which you sent me, and for which I am obliged. Kindly accept a bullet through your head. With kind regards to your corpse. Yours truly, [Signature]."

A new city clerk, who was anxious to make a favorable impression in her neighborhood, decided to show her collection of antiques to the ladies when he called. "This cane, and one by one she displayed the whole collection, giving him a history of each piece. Finally she pointed to the most prized article in the lot. "There," she said, pointing impressively to an old yellow topot. "That was used in the Boston Tea-party."

A boy man, much entreated with by his friends, was sitting next to him. The latter protested, and his friend, greatly mortified, apologized. On his way home from business that evening he called, at his wife's request, for three umbrellas he had left at a store to be mailed. "Now," he said, "the umbrella owner of the morning should be his nearest neighbor on the boarder car. He was the first man and my umbrella, and it was said quickly and suspiciously: 'I see you have had a successful day!'"

The Toronto Globe, says a contemporary, cannot understand how it happens that Mr. E. R. O'Rourke, who is a political hustler, a lawyer, and a philanthropist, is a Conservative in politics. It is a greater wonder that the editor of the *Globe* has the prefix of *Rev.* before his name, can romanticize his connection with and constant defection from, Bales, Emerson, Frith, Hyman, Jackson, Hopkins, Sir Frederick Borden, and James.

Mr. Aylsworth, Minister of Justice, is a Conservative, and in the speech of the other day to the Liberals of South House, his chief defense in connection with the charge that he was a member of the cabinet of which he is a leading member, appeared to have been that there have been many men in every Cabinet and in every Parliament. If so, does that justify the present grating and immorality of his associates? Mr. Aylsworth is a reformer after the kind that Debevoise would delight in.

On July 1st a law passed at the last session of the Legislature gave authority to the Minister of Agriculture to make a list of the names of the persons who are entitled to the honor of being called "Honorable" in the public places. Chicago is in the state of Illinois, and a number of hundred thousand Chicagoans come to smoke cigarettes on the streets because a lot of farmers of Springfield so ordered! It would be interesting to learn how far the law has been respected. Such enactments are simply farcical.

The prize list of the Canadian National Exhibition of Toronto is just out. Many changes have made, making it more convenient for reference by exhibitors. The regulations are changed so that all animals exhibited in the live stock section must be fed with the Canadian Herd registers. In the horse section the Canadian breeder is put on a fair footing with the importer. The directors have endeavored in every way to protect and encourage Canadian-bred horses. The prize in the breeding class, where some horses have been increased over \$100,000, is a gold medal. In addition, especially the one for string of ten horses, which is expected to be one of the features of this year's exhibit. In the harness, hunter and jumping classes the prize list resembles the same as last year, including the *Very Old* Horse Cup, which is again being given for the best horse of the breed.

In the speed division the prize have been increased \$1,000. A new class has been added, providing for horses that are not fast enough for the "free-hill," but that are too speedy for the 2:30 class. The condition is made as follows: "If all that you hope for, Every joy that you know, If all that you want to know, Fades away like the snow, Stand pat."

In the harness, hunter and jumping classes the prize list resembles the same as last year, including the *Very Old* Horse Cup, which is again being given for the best horse of the breed.

In the speed division the prize have been increased \$1,000. A new class has been added, providing for horses that are not fast enough for the "free-hill," but that are too speedy for the 2:30 class. The condition is made as follows: "If all that you hope for, Every joy that you know, If all that you want to know, Fades away like the snow, Stand pat."

If the solid earth sinks From under your feet, And you're nothing to wear And you're nothing to fear, Stand pat."

If all that you reverse, If the solid earth sinks From under your feet, And you're nothing to wear And you're nothing to fear, Stand pat."

Mine Managers at Cobalt Refuse to Agree to Demands.

Claim Can Get All Labor They Need—Scale Ratified at Mass Meeting of Miners—Managers Think Present Rates Equitable—Western Federation Cause of the Trouble—What the Man Want.

Cobalt, July 15.—A prolonged strike is evidently in store for Cobalt, through several mine managers declare they will be able to bring in all the labor they require.

The committee of the Miners' Union was prepared to modify their schedule of daily wages as follows: Carpenters \$12.50, carpenters \$12.50, pipe fitters \$12.50, blacksmiths \$12.50, ironers \$12.50, blacksmiths \$12.50, ironers \$12.50, blacksmiths \$12.50, ironers \$12.50.

The union also asked for a nine-hour shift all round, and not more than 60 cents per day for board. The above scale was prepared by the union committee and is being met with a great deal of opposition.

Managers' Statement.—The mine managers handed out the following statement: "As a meeting of the representatives of the underground in session, the following resolution was adopted unanimously: 'That the body of the Miners' Union and superintendents firmly believe that the schedule of wages scale presented by the Cobalt Miners' Union is entirely just and fair, and is higher than any other wage scale at present in force in Ontario, unanimously adopted by the agreement and scale of wages and hours published by themselves, and that no deviation be made from the same.'"

What is Fair?—The fact that the Cobalt union is in a state of trouble, the cause of the trouble. The mine managers believe a struggle with this body has to come, and the sooner the better.

CALUMNY.

A whisper woe the sin, a soft light too, and low. To be buried with shame and we Ah, neither for the other.

But not a quick and eager ear. Caught up the little, meanest word.

Another voice has breathed it clear: It is no longer a secret word.

From ear to lip, from lip to ear, Till it has reached the world's ear.

And that—break!

It was the only heart it found— The only heart 'twas meant to find.

When first its accents woke. It reached that gentle heart at last.

San Francisco. — Acting Mayor Chas. Burton, as a witness in the trial of Louis Glaz, charged with bribing supervisors to procure a telephone monopoly, has told in court the story of his entrapment last fall at the home of Mr. Roy, who bought Burton's vote for \$500 against an ordinance prohibiting child patronage of skating rinks, only to turn Burton over to the law.

Mayor Burton told how Rudolph Greckler, Assistant Prosecuting Attorney, District Attorney Langdon, Detective Burns and "a dozen others" walked in on him during the deal and offered to let him go if he would turn up his confederate and accomplice inside and outside of the board of supervisors.

He agreed, and a written guarantee of immunity was drawn up, signed and placed in Greckler's pocket.

Time's whirling brings many changes more strange than 'the

Man's altered relations of Canada with the United States.

Fifteen years ago Canada seemed to have no future outside absorption by the United States; she was a suppliant for fiscal favors which would give her entrance to the magnificent market on her southern border.

Her American was an over-bard bargainer, and the tariff wall from Oregon to Maine grew higher and higher.

It was sharp medicine, but gave Canada just the tonic that was needed to bring up her national spirit and develop her resources.

Instead of looking to the east and to the west, she is now in the position of granting fiscal favors.

Instead of soliciting them. In her trade with the Motherland and with the Pacific she finds abundant outlet for the limitless resources that have already been searched. Here is the opportunity of the century.

Government can rise to the height of it.—The Times of India.

Remarkably handsome, with dark, curly hair, refined, delicately cut features and mild complexion, Lord Donaldson looks more like some famous poet, painter or musician than one of our most distinguished and daring soldiers that ever wore British uniform.

Yet he is, in fact, an artist in many things, a craftsman, who has originated many remarkable inventions, had he, in fact, a poet, a scientist, country gentleman, keen sportsman and scientific agriculturist.

Naturally, such a man will always be in for the dramatic situation, the thick of the fight, the post of greatest danger.

Most moving in the story of how he guided, by the stars, the party who were taking the wounded from

Abessinia, and not igniting stirring in the Sudan, on the second of which he rose alone into the air upon his horse's back, riding in a blanket under a palm tree, and told him that Khartoum had fallen and was in the hands of the British. African war he proved himself the most daring leader of irregular forces in the Sudan, and one of the special feel of the Canadian contingent—M. A. P.

Here's a real martyr and a slave to duty: Governor Keith Smith has just been elected to the post of lieutenant that takes his own term.

Doctor Long now charges Nature with the sin of being unkind to her boys in the springtime, when they are awakened by the long "Winter's" and the care of their mother, the President will not tell off the "faddy" boys, all will be forgiven—X. Commercial.

And now, after justifying Schmidt in the case of the President, is putting in his place another man tainted with similar sin.

Yah, but the President is the truth that a city or a country will always get the kind of government it desires and deserves.

Two Chicago policemen with badly scratched faces are prepared to testify that two women can engage in a street fight, pull each other's hair, and cause considerable physical damage to each other's complexion, and still have their last pins in good working order when the blue coated minions of the law descended upon them in the interests of peace.

"The late Gen. W. R. Hartborne," said an old soldier, had a host of stories, always ready to be drawn out when an illustration or an instance was in demand.

In his company one day I was in a war mood. He asked me what the trouble was. I told him that I had been told that a certain job broker was a time at dinner, and he had been told with a sandwich and a glass of milk and a light such coffee.

He said, "I was told from Peckham." said Gen. Hartborne. "This story, with his wife and four children, came from Peckham to London, and stayed three weeks at the house of a third cousin." During that time the host showed himself a very prince of hospitality, he took the Sotheby's family to the Palace and the Alhambra, and all the while he gave them dinner at Frascati's and tea at Bouver's and the five and Carter at St. James.

He drove them in automobile to the Tower, the Abbey, the National Gallery, and all the other sights. And on the last day, seeing them off, he took the host in to a bar. One day he drank together, he said, taking out his pipe. "The host restrained him. 'No, no,' he said, 'Kaye's that. You're very good to be and mine during the last fortnight or more, and you have taken us everywhere and paid for everything. So, we'll send you a toast for this war trip.'"

Some newspaper men are terrible liars. In writing of a cyclone, one went one of these addits turned a well inside, out, a cellar upside down, more a towship line, blue and red, and all the while he changed the day of the week, blew a mortgage out of a farm, blew a credit out of three lines, and blew the wind out of a politician—Lend, or Cowden.

Some Liberals are finding comfort in what Mr. Bourassa said at Montreal to the effect that if Sir Wilfrid Laurier would surround himself with men of his own honesty he would be all right.

The grade is a minor kind, and in the Prime Minister's position who cannot select straight colleagues for his Cabinet is too sure to carolous to hold high public trust.—Montreal Gazette.

Considering the large number of illiterate persons in Egypt, the Egyptian Post Office returns offer an interesting commentary. There are at present 137 newspapers, daily and weekly, published in Egypt.

Seven years ago there were only thirty publications in the entire country and over half of these were published in the "Arabian" zone.

Forty-five journals are published in European languages. Although a majority of the 137 are published in second-rate journals, their foreign literary, artistic, and political topics are culled from the Continent's press, forming a strange contrast to the local news and comment over which it is necessary for the Government to keep a most rigid censorship.

Seven Bones Were Found.

Brave Men Worked In Peril to Reach Them

Statement by Owner of Building—Inquiry Next Week—Will Be Most Searching Enquiry—Calamity Said to Be Due to Carelessness—Trying to Fix Blame—Suits For Damages Will Be Entered.

London, July 18.—After a day and a night of a terrible struggle for the victims of Tuesday's frightful and riotous disaster, when Kent's Crystal Palace crashed, carrying calamity and death, seven bodies have been taken from the ruins of the building wrecked.

The last body taken out was that of Clara Mullins, the beautiful girl victim, which was recovered easily 24 hours after the shock shook London. This completes the list of dead. Yesterday, under the direction of Alex. MacCallum, an investigator, which will be most searching, was instituted. The following well-known bodies were recovered: H. S. James, an insurance broker, who was killed in the death of William J. T. James, and W. J. Hamilton, and the blame. Fred Wood, dentist, and J. Curran, salesman; William Gibb, a furniture dealer; H. S. James, a furrier; R. C. Brown, shoe merchant; Robert T. Mullins, a food merchant; Mr. Lever, it is declared, took a leading part in the efforts to establish the cause of the disaster.

Asked to Advise.—Korea's Emperor Charged With Imperilling Nation's Affairs.—Seoul, July 18.—The Korean Emperor has asked the Emperor to advise because of his action in sending the Korean Emperor to the Emperor.

Mr. Reid, owner of the building, was not at home when the accident happened. "I could not know a thing about it," he said, "until nine o'clock this morning, when I picked up a Toronto paper. I would not care about the accident, but the thought of the lives lost is too horrible. It can't be the fault of the building. The best material was used. It was very strongly built."

Will Claim Damages.—Engineer Gordon is said to have prophesied there would be trouble if the plans were adhered to. One of the best building inspectors in the city for being considered a must be a mistake, as only small stock was carried under the circumstances.

What Are Rake Offs?

This is a question often asked by men not versed in the details of the favored for the Ottawa, who have like values assessed too will not Cabinet Ministers. For the purpose of value, whenever opportunity presents itself, the influence gained over Ministers to so manipulate events, as to enable the writer to fish from the public treasury that which honestly belongs to the people.

A "rake-off" is one of the things that have helped to double the national expenditure.

A "rake-off" is the profit which the Minister Government allows the politician to take for himself on the various business transactions conducted at Ottawa.

Here is an example: The Federal Ministers wished to buy machinery for the Marine Department.

These gentlemen did not order the machines from the makers or the regular vendors, but from a middle man.

The middleman then turned the order over to the makers or their agents.

The articles were sent to the Department by the makers, and then sent to the middleman.

On receipt of the invoices the middleman made out orders for the Government, charging in some cases the double what the article had cost. The Government paid the middleman his bill, and then the middleman paid the maker his account, keeping the difference. Either for money, or for division among certain politicians. The difference is the "rake-off."

Dry-Suit—each guy gets keeping fresh and vigorous. New making. I WINDSOR TABLE SALT. Use it.

They are the smartest known to the Most Manufacturer's art, science and sense having achieved a wonderful triumph.

Will Improve Your Figure.

Not only knows how much money is made by politicians under this process, which no business firm would allow.

That the amount is very considerable, and it is one of the ways to go to make the total expenditure of the country so surprisingly large.

Here are a few cases which show clearly the practical working of this "rake-off" policy of the present Ottawa Government.

In Montreal, N.B., the Government required land for fire-alarm clock purposes; and through middlemen, not the owners themselves, made two distinct purchases. In one case it paid to a man named Lajoie, a civil politician, \$1,500 for lots, which Lajoie was buying from the owner for \$500, this giving Lajoie a rake-off of \$7,900. No, a bad foreman job.

In a second case, it paid \$10,000 for other lots which the same middleman had purchased for \$3,000.

Now come to Halifax, and it was shown before the Public Accounts Committee that the Railway Department paid \$5,000 for land which two politicians, Messrs. Parsons and Henderson, had just bought for \$1,875. The Ottawa system is obviously very intricate.

A politician knows through some mysterious agency what land the Government proposes to buy, and buys it for an advance a good round profit, and transfers to the Government at the higher figure. By this process the country here incurs large sums of money, and Mr. Aylesworth says these cases are numerous.

Stories of cases equally flagrant, could be cited.

There are sufficient to explain what a "rake-off" means.

How much to be exact, and how the people are made to pay for their articles than stealing?

When some people tell the truth there are unable to recognize it.

There are lots of little chickens in the garden, and the pigs are eating them as fast as they can. In among the barley rye.

And there's a hen in the bloom, And its throat's like a bell in bloom. Across three thousand miles of sea From where it lay by being.

And, oh, let I am less than one For the days that used to be. In the garden, and the pigs are eating them as fast as they can.

I hear the little chickens chirp as glad as they can be: "The bonnie birdie's come!" It's the time for plucking (from the hen) the bonnie birdie's come!

I wonder if they're missing me! At all, at all, at all! I'm longing for you, and I'm longing for you, and I'm longing for you.

First Thought in Danger. "Thinking of the foolish things one thinks about when in a perilous situation," remarked one of a group the other night, "I had promised my wife never to travel at night, and it is amazing I have always obeyed, but necessity compelled it a few weeks since."

As luck would have it there was an accident, and I was the only one in which I had my berth walled down an embankment and I was the only one of blankets, pillow, etc., etc., the terrible thought dashed across my mind. "What if I had?" Here I am traveling at night!"

Burial of Sir John Moore. The city of Cornwall, where Sir John Moore was killed, is a sort of at the entrance to the estuary of the Alvo river, 210 miles northwest of Madrid. The famous poem by Charles Wolfe is a misrepresentation of the scene of the battle, for Moore was not killed at night with "our lanterns dimly burning," but in the early morning, rainy day, and the surroundings of English officers made the grave was dispersed by heavy army of the French batteries, the gunners mistaking the purpose of the gathering.

Diplomacy. "John," she said, "I notice that all everybody is wearing earrings."

"But, my dear," replied John, "they had such small and delicate ears as I saw by your woman's dress they had that way."

Thus the diplomacy, at least for the moment, saved off a contemplated touch.

York Springs Dry Ginger Ale is perfection as a Summer-day beverage, because it does more than merely allay thirst for the time being. It quenches thirst; and it braces and stimulates the whole body, with no consequent reaction. York Springs Dry Ginger Ale gets its keen pungency and sparkling crispness of flavor from pure, selected Jamaica ginger-root, combined with other pure vegetable aromatics, and ideally pure York Springs Water, lightly charged with purified carbonic acid gas. There is only a trace of sweetness about this delightful beverage—it has the "see" of fine champagne, and is almost as invigorating,

although there is no alcohol in it. Chilled slightly, sipped slowly, a glassful of York Springs Dry Ginger Ale instantly refreshes parched throats, lessens the heat of the blood, cools the brain and body, and withal puts tone and vim into the system—the effect of the ginger it contains. Not even the finest imported ginger ales, though these cost much more, excel York Springs Dry Ginger Ale in absolute purity and actual quality. Not one of them vies with it in the delicious piquancy and snap of its inimitable flavor. Everyone does not know how good a summer drink such a Dry Ginger Ale really is. Try it for yourself—it is certain to please your palate.

SUNSHINE FURNACE

THE IMPORTANCE OF THE WATER-PAN

is not appreciated by many furnace manufacturers or the general public as much as it should be.

Without the moisture evaporated from the water in the pan, the hot air distributed throughout the house is dry and dusty. Cracks and opens up the furniture—is not fit to breathe into the lungs.

Yet, mind you, some furnace makers place this important water-pan where there is often not enough heat to evaporate the water. Put it out of sight in an awkward position at the side or back, where it cannot readily be filled without being removed—and when filled it would take a juggler to replace it without spilling a big share over himself.

Note the convenient location of the large water-pan of the Sunshine—just above the fuel door. Takes but a moment or two to fill it.

It is placed right in the path of the hot air as it circulates around the dome of the furnace. It is impossible for any heated air to pass out of the registers before extracting its due share of moisture from the water-pan. That means you breathe healthful, clarified air, free from dust and dryness.

For the sake of your furniture, your own health and peace of mind, you should decide on the Sunshine.

THE TEN COMMANDMENTS—DU- TIES TOWARD MEN—GOLDEN TEXT: "THOU SHALT LOVE THY NEIGHBOR AS THYSELF."

The Fifth Commandment. This commandment belongs to both tables of the law. Since God is our Father we are taught to honor him as a father. "If thou art a father, where is mine honor?"... with the Lord of hosts unto you—Mal. 1:6. To honor the parents is in the place of the heavenly Father, to lead the child up to him. The word placed in brackets, "they," must not diminish the duty of man to God reflected in the duty towards their parents. So in Lev. 19:3, the duty was not to show piety at home, meanwhile, in its Latin equivalent, colore, honor, reverence, is applied both to God and to parents.

"We are bidden to honor, because love is instinctive, and an unfeignedness. The honor for our parents is love combined with reverence, love must be honor tinged with emotion. The word honor includes love, for there can be no true honor without love."

It applies to both parents. "Mother stands out as clear as final truth. There is no cloud on her majesty. Such honor as goes to the father goes to the mother."

We honor by love, by courteous attention, by giving them the best of our time, their will with us, by the presence of others, by deferring to their wishes.

The sixth commandment is "the sanctification of moral life and the removal of all righteous potent." In its widest sense it respects every duty everywhere, and honors all in authority over you, such as your pastor, teacher, employer, or magistrate. Luck in this respect is growing evil, full of mischief to our nation.

The fifth commandment does not require a child to do wrong a child to love even unwisely parents because they hold to him the sacred relation of father and mother.

The sixth commandment. Thou shalt not kill. The word kill, though it should more properly be, do not murder. Killing is sometimes excusable; the Bible itself explains the killing of man in order to prevent the punishment of the innocent. The primary meaning of the commandment is to inculcate reverence for human life. It stands for a great principle which is applicable alike to all people and at all times.

The breadth of this commandment is that we hurt nobody by word or deed; that we bear no malice nor hatred in our heart. "Who so hateth his brother is a murderer." The commandment forbids all things which shorten the life of others—enraged, ill-tentative, malicious, evil conditions in the life of over-crowded, ill-treated, neglected, or wronged children, the ruin of many by breaking the seventh commandment, carelessness on railroad and steamboats, fire-traps, adulterous, and so on.

It forbids murder and all these things which shorten and lessen the value of our lives—gluttony, drunkenness, intemperance, and the like—murder of others, as well as ruin of the living.

It does not forbid us to visit our lives to save others, or to take our lives in our hands for the sake of righteousness, the nobler life of love, honor and mercy does not break this law.

Does this law forbid the execution of murderers, as a plain from the scriptures that place in the life of the innocent.

Primarily the sixth commandment forbids adultery, and the sin, contrary to right differences, are contrary to this.

It forbids all impure thoughts, and all pictures and plays and acts which tend to excite male passions, and incite impure acts. Purity would exclude from the ideal of the Christian life all that is base, the taste, even all poor, pitiful, and unworthy.

"Heed are the pure in heart, for they shall see God." While the impure are all those of dirty things. No sin, not even intemperance, nor rapidly ruin a man's mind, and soul, as this sin.

It is to overcome this evil by the good—true love and happy marriage, the life of good thoughts, a life full of good deeds.

The Eighth Commandment—It is the safeguard of personal and property rights, and safe wall of defense against the temptation to evilness and crime.

The crime of theft is, of all others, the most and most despicable. It is selfishness incarnate. It is the stealing is far worse for the thief than for the one wronged. A clear conscience is worth more than all the world. Plato illustrates the cost of honesty by the story of Cyprius, which made the water invisible. He that is honest, even when he can be dishonest without being found out, is truly honest man.

There are many kinds of theft, and all degrees, but the spirit is the same. The first is from the same root as selfishness. Even children may be guilty of stealing in commodities, playing marbles for keeps, and various ways. It is not only against the stealing of the merchandise itself, but against all who plunder others, and by means of which they are made poorer, and the honest are made richer.

It is against all who by their greed, dishonesty, or refusal to give up the rights of their neighbor.

A HANDY HOLDER.

A Thing Appreciated When Lifting a Hot Teapot.

If you have ever taken hold suddenly of a hot teapot or coffee pot and just as suddenly dropped it, to the destruction of handsome china, or have made a really ornamental as well as useful.

Out of two circular pieces of thin elastic bands and four wide. On one band a simple design in forget-me-nots or daisies in white mercerized cotton and leave the other band plain. Beate the edges together and bind all around with a narrow wadded cotton in white. On the under half leave an opening in the center, into which can be slipped either a hot teapot or a coffee pot or a hot iron. The cotton band or sash, the shape as the cover. Fasten this piece with tiny buttons and interlock.

If one does not desire a large model, two pieces of several thickness of cotton band and worked in satin stitch, will be very stylish.

Though not as convenient or as new as the removable linen holders, which can be easily laundered, a dainty of flowered or plaid silk or cottons. These small holders may be square, rectangular or oval in shape and have the last is most convenient.

Use the required shape, and place with several thickness of cotton band, sew them together and quilt in small diamonds. A row of narrow ribbon may be placed all around the edge to give a pretty dainty.

Up! If someone else, the old girl went away.

One, again, and bring your hatting.

The Toronto excursionists go, and the County Councils bob up again. The distinguished visitors can't keep away.

Bored! For the Toronto old boys and girls, by adding the rain with them they saved the potato crop.

Let us hope the visitors took good care at Frost street's and below their hats. They don't see anything like it for some time.

The Council succeeded in knocking about \$2000 off of the total of the Hospital last night, but the robust figure of over \$10,000 is still left, and the office will be built to cost that amount. This is the middle of most people will stand for needless extravagance, but perhaps our representatives in the Council can justify themselves in the matter. We must, however, confess that we cannot see it. The building is to be one which can be used for no other purpose; it may not be used from year to year, and to another; why, then, could not a cheaper building, which would have answered the purpose just as well, have been erected? The ratepayers of this beautiful city have plenty of work at present, without a building which may not be used more than once in a day's age, and which, when finished, will probably stand for a long period of at least 100 years.

In these days of strikes and women's rights laws is therefore reason why the old dear old sister, the City of Kingston should be so busy. The share of the sports of the day, and the terrible results of the labor agitation? We know not. It is a question that the Dominion Court, this city, employed some Kingston immigrants, and some Kingston, this season. The new-comers were engaged at lower wages than those of the natives. Of course this did not please the labor unionists of Kingston, and a pitched battle between the English and Canadian girls. The fight was carried, and soon got beyond the ability of the management to stop it. The police were brought on the scene, and order was finally restored. How the dear old city must have enjoyed this relief from the annual which usually prevails there!

St. Wilfrid is home. A rumor from Ottawa says Parliament is to meet on the 1st of November. There are four Ontario vacancies in the Senate. Mr. James Wason, pensioned, and death rendered of Mr. Meares, of Cobourg; Dobson, of Kingston, and Cairn, of Windsor. Are the vacant chairs to be filled before November? If so, is one long-promised and long-patented William (Nathaniel), to be called to fill one of the chairs? If not, why not? Has the age when political prisoners were held closed into oblivion? If not, the high, high Wilfrid, full your pledge and send the hay of Quatre bras safety in the west.

STROIDS

FRAUD NIPPED IN THE BUD.
Kingston Merchants Saved From Deceptions of Life Swindlers.
Kingston, July 25.—During the past two days this city was visited by a couple of clever swindlers.
They put up at a hotel, registering Frank Lyle and wife. The first move in the game was by the man, Y. W. C. A. rooms and obtained the printer's card. But after his departure those present remembered hearing of a swindle in St. Thomas worked ostensibly for the Y. W. C. A. so a word of caution was sent to the president. The man in due time made his appearance, represented himself to be getting out of St. Thomas, and was asked to see Y. W. C. A. endorsement was made. The next place visited was the home of the women's national council, to whom he made the same representations, only substituting W.N.C. for Y. W. C. A. Here the swindler was successful in getting the president's endorsement.
The man and his companion then went to work their "scheme" at the merchants were visited and informed that they were getting a booklet for each being \$5. Orders were numbered and this a printing office was visited and arrangements made for the payment to be made by the merchants. The merchants were to be asked to pay the money in their pockets they would quietly slip to other places, but the story was told of their movements in the west and soon after their arrival they were shadowed. They must have realized the situation for as they left this city Tuesday night.

G.T.R. NEW ROLLING STOCK.
Sixty Passenger Coaches, 100 Engines and 4,500 Freight Cars.
Montreal, July 25.—With the daily delivery of engines, passenger coaches and freight cars, the G.T.R. Railway is rapidly approaching the day when the last of nearly \$10,000,000 worth of rolling stock will have been received by them during the present season. The G.T.R. has already received 300 passenger coaches ordered, costing about \$1,500,000, and 100 engines, which will make a total of \$750,000. Thirty per cent of the rolling stock has been received.

Over 100 engines ordered, and of these 60 have been received. The cost of the rolling stock, or an aggregate of \$1,500,000.

The tremendous increase in freight tonnage handled by the G.T.R. Railway of 4,000 up-to-date cars. The order for 4,000 up-to-date cars, at \$1,800 each, so that the great sum of \$4,000,000 is being spent for freight cars alone.

THE CONSERVATIVE WINS.
Mayor McKewen of Orangeville Elected to Legislature by 100 Majority.
Orangeville, July 25.—The Conservative (Conservative) was yesterday elected to the Legislature for the County of Dufferin, by a majority of 100 over J. R. Woods (Independent). Thirty of the polling places were won by the Conservative majority of 25.

The result was in doubt until the last returns were received, and as a result the action of the Conservative majority was not to be taken.

The mayor addressed the electors at the polls, and said that he was glad when his election was secured.

The prohibition and anti-liquor bill was not taken in the campaign, and the cry was the "large farmer," and the cry became a serious one.

MINERS FOUND STRANDED.
Men From St. Kitts Refused to Work in Congia Mine.
Cobalt, July 25.—Nearly 25 men were stranded in Cobalt today, because they refused to go to work. The men were from St. Kitts, and the company had paid their fares from St. Kitts to Cobalt.

DARROW APPEALS FOR LABOR.
Contends That Steamship's Call For Troops Stirred Up Feeling.
Boise, Idaho, July 25.—The career of Frank Stearns, the murdered co-receiver of Idaho, was discussed at length yesterday afternoon by Clarence Darrow in his plea for Wm. Hayward, charged with the murder.
Justifying the articles published in the West of the Western Frontier, Mr. Darrow said the action of Stearns in asking for United States troops to quell riot and the establishment of martial law in 1902 was unjustifiable and was properly stirred up by the labor in labor cities against the government. Mr. Darrow's argument, notwithstanding last night, turned into an appeal for the labor to accept of a declaration of all opposition to labor. He held an audience of about 500 people, and the sentiments poured from his lips. "I think that the United States is not a lawless country," he said, "but in this respect he surpassed all expectations."

Victoria, B. C., July 25.—The electric power plant at Victoria, B. C., being destroyed by the fire, the city is being supplied by the city council. The city council has been supplied by the city council. The city council has been supplied by the city council.

Barns Burned.
Electrical sparks played over the County of Erie during the storm, and did much damage. A barn at Port Stanley, was destroyed, and the damage amounting to \$15,000. The fire was caused by the fire.

Boys Shocked.
A fire in the County of Erie, B. C., during the storm, and did much damage. A barn at Port Stanley, was destroyed, and the damage amounting to \$15,000. The fire was caused by the fire.

Damage At Cleveland.
People at a summer resort on the lake just east of Cleveland, Ohio, reported that they saw two small sailing vessels founder during the height of the storm. As soon as possible the boats were sent out to the scene of the supposed wreck, about three miles from the shore. The boats were found in vain for wreckage. The lives of the sailors were in danger, and the boats were found in vain for wreckage.

The Mayor is getting to be a first athlete. He was called in the ring at the Grand Trunk club, yesterday.

A correspondent wants to know if the Front St. roadway will be any better now the dust has been taken up. Likely, anyhow, it isn't very well at any rate.

It is now said that all the hard coal in sight will be burned up in 78 years. But who wants to think about coal this weather?

We don't, these days, hear of so many people setting the "Western" as we did some time ago. Not that the West is not a good country. Of course, no. But there is a lot of truth in a remark made by an esteemed contemporary, which says: "It is a good country and the time to go there, a trip West this summer or fall will surely do him good. But if he hasn't and is able to make a comfortable living here, he would do wisely to stay at home a while longer. In a year or so he will be weary of his own home cooking."

Some people are wondering why the Council does not show a little more energy in the matter of the rebuilding and refurbishing of St. Vito's hall, which is certainly needed.

Very early in the morning, the City of Toronto, will enjoy the fruits of the following, which appeared in the Independent on Tuesday, June 1st.

"Without Mr. Wilfrid Laurier, the present administration would not have survived a moment. The objection would be quickly raised that it is not fair to say that he has done so much for the province and the country. But when we consider the results of his administration, we are forced to admit that he has done so much for the province and the country."

"The results of his administration are so obvious that they are almost self-evident. The province has been brought to a state of peace and order, and the country has been brought to a state of peace and order."

It doesn't necessarily follow that a man is any good just because he is good as a business man.

There are men of good sense to be very common who are not doing their duty for the neighborhood.

A man who doesn't want what he hasn't got has no want.

Proper Facilities Against Guess Work.

To fit families thoroughly there are two essential requisites necessary to produce the best and most satisfactory results. First, a thorough knowledge of the laws of light and color, and second, the use of the proper instruments for testing and correcting the eyes. The first of these is the most important. Without these two essentials, the most skillful optician is of no use. It has been the modern opinion in the examination of your eyes, that your glasses are the result of a guess, or a bold one. We do not guess.

SOCIETY IN TERRIBLE STATE.

British Press. Ontario Upon the
Haywood Trial.

London, July 30.—Commenting on
the result of the trial of William
Haywood at Boise, The Chronicle
yesterday says:

"The state of society revealed by
a trial of more terrible state
will war, because it is more teach-
ing and it is more revealing, is
beginning to end. It reveals a
condition of brutal rapacity, uncon-
cerned with any consideration of
condition that give American
society civilization a very dubious
title."

The Daily News says: "From the
start the question has been com-
plicated by the fact that the trial
of a man of the class of the trial
and of maddening class war. The
results of the trial and its accompani-
ment in public excitement, has il-
lustrated the necessity of a
America and the profound skepticism
concerning the identity of law
and justice."

Both officials refer to President
McKenna's "undesirable citizen-
ship" as a factor in the trial.

The News calls it one of his in-
fernal and undesirable, and The
Chronicle predicts that it will not
end in death.

Byron is Glad.
Portland, July 30.—W. J. Bryan
yesterday followed on his way to
Mexico.

"I am glad to learn of the verdict
of the jury. It is not guilty. I watch-
ed him with the most intense in-
terest. I am glad to see that he
could be found guilty on Oreho-
n's evidence."

The Oregonian says: "The
verdict was not to his honor and
dignity as he himself suggested,
and it was shown he was in com-
plicity with the military. It was
tempting to inform the defendants
of the result of the trial."

"The manner in which the prison-
ers were treated was a disgrace. It
is in keeping a fair prosecution."

BELLEVEILLE, ONTARIO, TUESDAY, JULY 30, 1907.

Twenty Were Lost.

New York Tenement Proves an Awful Death Trap.

Majority of the Victims Were Women and Children— Fire Followed an Explosion—Many Suffered Mortal Injury in Wild Panic—The Stronger-Su- vived in the Wild Scramble for Escape.

New York, July 30.—After an all-
night search of the ruins of the six-
story tenement at No. 122 Chrystie
street, which was burned shortly af-
ter midnight, the police succeeded
in finding twenty victims of the
disaster.

The bodies of the dead were found
in all sorts of unexpected places, to
which persons had fled after the fire
broke out. Almost all of the bodies
were burned beyond recognition, in-
jury to such an extent that it was im-
possible to distinguish the sex of the
dead.
